September!

As the newness of the school year wears off, please keep up with your homework. Be as responsible and mature in your dedication to your academics as you are to your music. I'm thoroughly enjoying working with all of you in class!

It's a game week!

We made it! It's finally time to perform. Take care of yourselves, think ahead and make sure you have the right items ready to go each day. You are as prepared as you allow yourself to be.
